## WHAT'S DRIVING THE INCREASED RISKS ON THE ROAD

What's driving increased risk on post-pandemic roads?

- People feel stressed - 30% report they are more anxious behind the wheel today than before the pandemic and 54% believe distracted and aggressive driving has increased.
- Employer expectations are high, - 86% of employers expect their employees to respond to work-related messages when they are out of the office during work hours.
- So, employees feel pressured, - 42 % of drivers say they accept work-related calls, texts or emails while driving, why, because they think it might be a work-related emergency, they feel they always need to be available and they say their boss will be upset if they don't answer.
